4	Denver Solid Waste Conversion: Currently have three ways of collecting trash – types of containers, very inefficient and costly. Converted east park Hill to carts from dumpsters, will be converting the remainder of Park Hill that is on dumpster collection. Opt in to mini-trash can which is only 35 gallon or with larger family they have 90 gallons trash carts. Carts will be delivered to the front of your house. Alley collection will remain alley collection (wherever possible) Current employees that physically pick up home owner trash cans to empty into truck are being trained to drive the new cart collection vehicles. With high turnover in department, will not be laying off any current employees because of the conversion.	Denvergov.org
